26 C. The department may exempt certain sources of radiation or kinds
27 of uses or users from the licensing or registration requirements set forth

1 in this section if it finds that exempting such sources of radiation or
2 kinds of uses or users will not constitute a significant risk to the
3 health and safety of the public.

32 desirable, subject to such registration requirements as the department
33 prescribes.

34 J. Any licenses issued by the department shall state the nature,
35 use and extent of use of the source of radiation. If at any time after a
36 license is issued the licensee desires any change in the nature, use or
37 extent, the licensee shall seek an amendment or a new license under this
38 section.

39 K. The department shall prescribe by rule requirements for
40 financial security as a condition for licensure under this article. The
