9 Sec. 3. Legislative findings

10 The legislature finds that:

11 1. Minerals and common variety minerals exist where they are.

12 2. Minerals and common variety minerals are needed for all forms of
13 commercial development on state trust lands, including affordable housing
14 and semiconductor fabrication.

15 3. Development that occurs over state trust lands that contains
16 minerals permanently locks away those minerals, preventing the minerals
17 from being extracted and permanently foreclosing their revenues from
18 accruing to the trust.

19 4. Mineral extraction is subject to reclamation plans that restore
20 the land to its previous condition before extraction occurred and this
21 makes the land usable for other commercial uses once mining is completed.

22 5. Pursuant to the Arizona Constitution and the Enabling Act, the
23 extraction of minerals must occur before any other commercial land use.
